

RTD surface temperature probes

- Temperature range from -50 to +260°C
- With probes made of various materials
- For round and level surfaces
- Easy and quick installation
- Low thermal mass

Technical Data

Connection	Various cable termination types are available: tin-plated, with ferrules, contacts or multi-pole connectors
Cable	Silicone, ambient temperature -50 to +180°C PTFE, ambient temperature -190 to +260°C Kapton, ambient temperature -50 to +260 °C
Thermowell	Stainless steel 1.4571 (equivalent to SS316 Ti), aluminum, plastic
Measuring insert	Pt 100 temperature sensor, DIN EN 60 751, Class B, two-wire circuit
