

CATO-TECH

Sand system heaters

Cato-Tech A/S has a wide range of heaters for the sand systems and the sand pipes. The sand systems must be heated to prevent that the humidity in the sand will freeze and lead to a blockage of the system when it is most needed. The sand pipe that leads the sand to wheels must be heated, to ensure a free passage for the sand.

Following Voltage is available:

24 V, 48 V, 115 V, 230 V

Power:

40 W, 50 W, 60 W, 100 W
