

Flexible polyester heaters for mirrors

Cato-Tech A/S offers flexible polyester heaters for locomotive exterior mirrors. It will solve the freezing problem during cold weather and will eliminate condensation problem during the seasons.

Cato-Tech A/S also offers flexible polyester heaters for domestic use in bathrooms and toilets. The heaters prevent condensation and freezing on bathroom mirrors.

Cato-Tech A/S heaters have been developed to have a self-adhesive backing, which allows an easy attachment to the mirror.

The shape and capacity of the heaters can be designed according to client's specifications.
